Docket No. 98N-1265

Food and Drug Administration

2305 '99 MAY -3 NO :40

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: I am much more comfortable using a
a compounded progesterone product than the "one-size
fits-all" product that I had used previously - for
many years.

I see no reason why any provider should be
limited in amounts to be shipped out-of-state -

My other prescriptions are provided by Merck-Medco
(of Florida) - whose business must provide thousands
of patients with products - out of state.

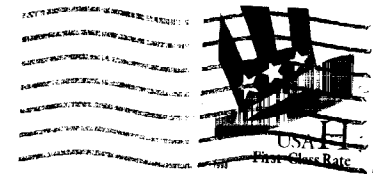

Is this an attempt to put large corporations in
control? I am totally opposed to this move and
believe it's against our democratic principles and
rights to choose our services & providers.
